

# MAKE CALLS TO PSTN WORLD THROUGH ZOOM WITH RING2ZOOM

NOW YOU NOT ONLY CAN DO VIDEO MEETINGS THROUGH ZOOM, BUT ALSO MAKE & RECEIVE CALLS USING MALAYSIA LOCAL NUMBER.

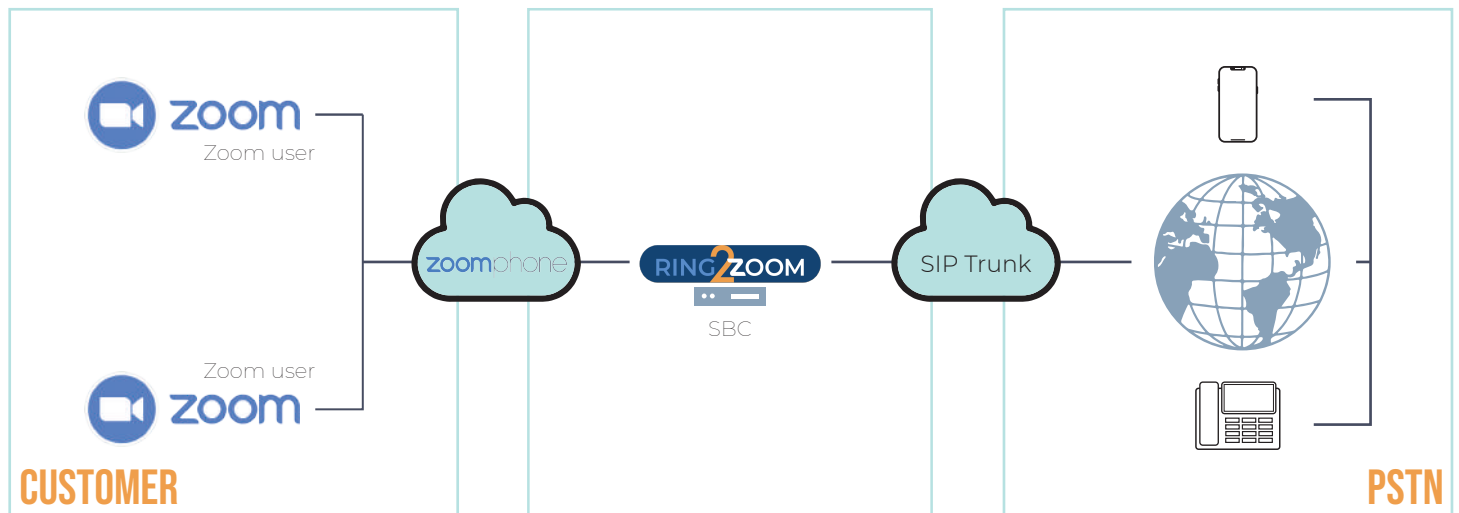

## ? zoomphone BYOC

Zoom Phone is cloud-based business phone system developed by Zoom which enables users to make calls from personal computers, desk phones, Zoom Rooms, and cell phones (via the Zoom mobile app). Bring Your Own Carrier for short BYOC refers to an enterprise telephony connectivity architecture that allows for flexibility when migrating to cloud telephony solutions.

## ? HOW THEY WORK?

There are two main ways to facilitate BYOC with Zoom Phone, via the public internet or a private direct connection. In our scenario, we use the Session Border Controller (Ring2Zoom) to redirect the SIP trunks to Zoom Phone's cloud PBX.

## ? HOW THEY WORK?

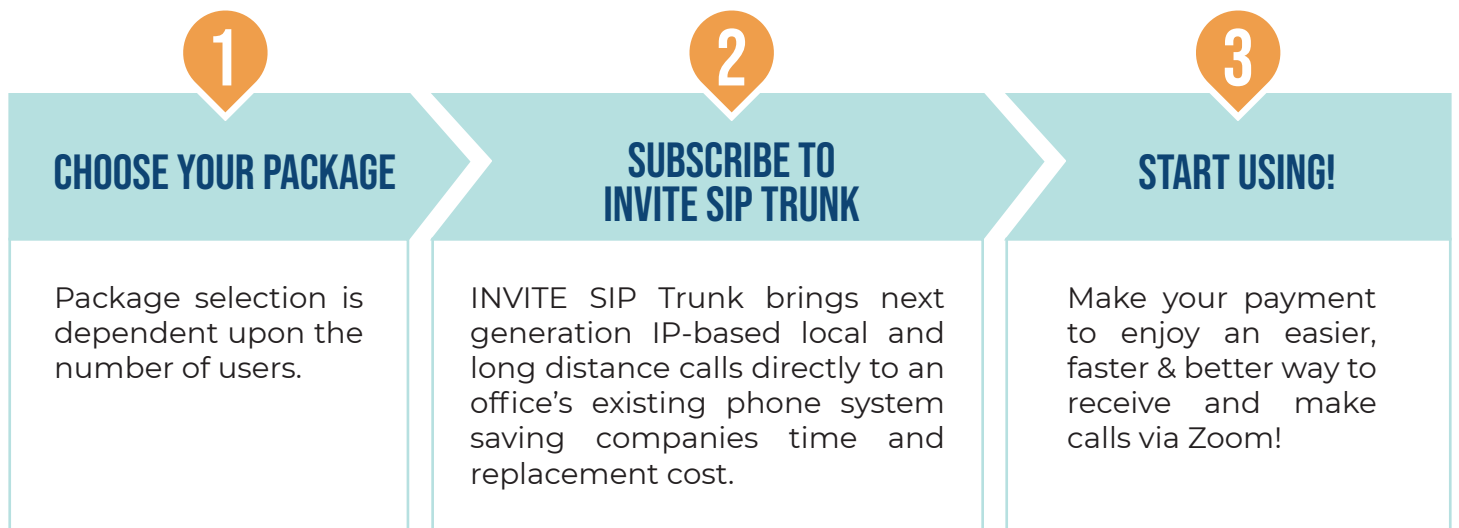

## ? BENEFITS OF RING2ZOOM

### RING2ZOOM BENEFITS

- ✓ Make and receive calls using Malaysia number through Zoom
- ✓ No need to replace your entire communication system to enjoy the benefits of Ring2Zoom
- ✓ Broader coverage than Zoom Phone plan (such as INVITE Communications)
- ✓ Cheaper call rates, more flexibility and better support
